To whom it concerns

I wish to register my strong protest against the obscene waste of taxpayers money by the NSW State Liberal Government

The suggestion to waste billions on the Moore Park and Olympic Park stadiums - one of which is only twenty years old - is typical of this government.

I am a member of SOP Lifestyle and it seems that almost every week I, and all their members around Newington and Wentworth Point, are offered free tickets to the NRL games or other events at the Allianz stadium. Obviously, they can't sell the tickets - and yet the government is ready to waste billions on this and the Moore Park stadium. In the meantime, we have no new high schools in the area. I live in Newington and my granddaughter has to travel an hour each way to Concord High School; a school which is now surrounded by demountables.

The cynical offering last year of the tiny triangle of land next to the Australia Square roundabout is a disgrace. It is the most absurd and most dangerous site that could have been offered around the SOPA. And even that announcement was a lie since there is not even a line item attached to that proposal

It really does show where the priorities of this pathetic government lie.

Regards  
Barbara Hall
