INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Mr Tad Boniecki

Date received: 24 May 2018

I am appalled by the proposal to knock down the Allianz Stadium and to waste more than two billion dollars of public funds in order to build a new one. The current stadium is under-utilised and we certainly do NOT need a bigger one, not to mention the destruction of our precious trees.

It is pretty clear that there is no valid business case for the proposal. It is just another white elephant to be built at our expense and that will decrease our green spaces.

This astronomical sum of money could be spent on schools and hospitals, not on something that is totally unnecessary.

Please register my opposition in the strongest possible terms.

Tad Boniecki
