Spend the money on schools public transport and hospitals.

Upgrades and new builds on schools and hospitals are required far more urgently than another stadium.

It is in fact the peoples money you intend to spend and our asset (stadium) you intend to demolish.

Our money should be spent wisely and to date I have not seen that happening.

The current government has created a filthy mess in their haste to knock down and rebuild Sydney. This proposal simply adds to our current woes!

Please leave Moore Park and surrounds, and the Stadium, alone.

Take the policy to an election because people are sick of the fixation for building shiny new things that we neither want nor need.

Like a child in the lolly shop with OUR money .....
