INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Ms Robyn Tantau

Date received: 25 May 2018

I strongly oppose the proposed destruction and reconstruction of the sports stadia.
The use of public money on this project is wasteful.
The secrecy surrounding this proposal is unwarranted.
Expenditure of public money should be open to the public to see that the process and reasoning is valid and of benefit to the people of NSW and Australia.

It seems to me that the secrecy surrounding the proposal supports the notion that the proposal is not in the public interest.
