INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Ms Kathleen Johnson

Date received: 25 May 2018

I object strongly to the proposed stadium development in the Moore Park area. As a long-term (40+years) of the area, I am extremely concerned with the disruption to the surrounding residential area with its treasured heritage value and to damage and extra use of Parkland with loss of trees.

There will be increased traffic congestion affecting access to the Airport which I use frequently every year.

In general I believe that the creation of a major sports and entertainment area is in the wrong demographic area and the community most affected has not been adequately consulted

I hope you will give these concerns due consideration.

Kathleen Johnson.
