## **INQUIRY INTO SYDNEY STADIUMS STRATEGY**

**Name:** Mr William Wrighton

**Date received:** 25 May 2018

---

I am looking the stadium destruction, that is how I called it to be investigated. I don not think that the stadium require any type of work. In here is a private sponsor that has been requesting this to happen for many years, until now that has been somehow been approved... The destruction that we have seen around Centennial Park and Randwick is already unacceptable. The environment damage is too much..

On the other hand the government should be using that money in more important areas which are health and education. If sport, then build an stadium where is really required, there are a number of areas and suburbs that there are no sport facilities for the people.

Regards,
