INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Mr John Fraser

Date received: 25 May 2018

The proposal to demolish an existing stadium after less than 35 years and replace it with a new one is not justified on cost alone. There are other considerations such as the projected income from the new stadium. I do not believe that there is any hope of enough patrons to cover the cost based on the current patronage of the present one. Many promises were made in parliament about the present stadium before its construction. Perhaps a re-reading of some of these would be worthwhile.
