INQUIRY INTO SYDNEY STADIUMS STRATEGY

Name: Mr Damien Hawcroft

Date received: 25 May 2018

Should not happen and money would be better spent on hospitals, schools, child care centres, homeless accomodation, etc. why rebuild infrastructure that is relatively new and rarely filled to capacity. If any money is to be spent, spend it on local / home sporting fields as this is where people want to go. It would be a complete waste of the publics money to have it spent on the rebuild / refurbishment proposed by the state govt. where is the business case report for this money to be spent, if this report was made available it would provide clarity for the community to make a better assessment as to whether these projects should proceed. My vote is "no" to this proposed redevelopment of these stadiums.
