Moore Park Stadium demolition and rebuild.

WHY?

We need more information on: T

he real cost

The business case

The logic

The beneficiaries

The location

The need

The proposal is wonton destruction of a 30 year old building that can and should be upgraded, it is the waste of public money. Priorities!

Most of us in Paddington live in houses around 100 years old which have been cared for, upgraded and now a significant part of our proud heritage - your constituents are responsible for this result. The stadium is a recognised and iconic design worthy of preserving. It is inconceivable that any responsible government would crave this destruction.

It is your duty to the people who trusted and voted for young your team to make decisions on their behalf for the whole, not at the beck and call of a powerful few.
