**INQUIRY INTO PROVISIONS OF THE FORESTRY  
LEGISLATION AMENDMENT BILL 2018**

I would like to submit that I am vehemently opposed to the proposed changes in the forestry legislation. Relaxing protection of native flora is ridiculous. Once lost, species that have evolved over millions of years will be gone forever. We should be protecting these native species of flora and fauna. We know what we are doing and choosing a quick buck in our life time, over their very existence is a disgraceful decision. Please retract the proposed changes to the legislation. Make land clearing harder, not easier.
