

## INQUIRY INTO SYDNEY STADIUMS STRATEGY

**Name:** Name suppressed

**Date Received:** 28 May 2018

Partially  
Confidential

When will you be true and open to the public, presenting ALL the facts and decisions, divulge in time all you are secretly 'fomenting' and not disclosing. As far as you lot are concerned, we are still waiting for the total disclosure of your policies, your decisions which often are against our wishes. We are against your lack of openness, your lack of proper care and your lack of empathie towards those who have so little, indeed the community at large. Yes; it is US who are the majority and very often against what you propose to do in Sydney and NSW. Do you really believe that what you propose about the stadiums, light rail, the congested and impossible roads, stand-still traffic will make our lives better! What a Joke!?! As usual, a lot for a few, so little for so many!
