INQUIRY INTO IMPACT OF THE WESTCONNEX PROJECT

Name: Mr Kelvin Riordan

Date Received: 22 June 2018

To the NSW Government It is about time the public (and voters) were informed about all aspects of the Westconnex project truthfully. Hiding behind a private company, Sydney Motorways Corporation, only leads me to believe you have deliberately set out to deceive. I live on Johnston st Annandale which is largely residential and an historic street containing 3 primary schools, 2 pre schools and 2 Aged Care homes. If stage 3 of Westconnex goes ahead we will be inundated with 133 b-double haulage trucks(diesel) and 70 light vehicles and an unknown number of Hanson Concrete trucks(diesel) per day. We have already seen the pollution levels of St. Peters and Haberfield Primary Schools rise well above the national average because of Westconnex works. When the Premier was in Opposition she demanded the M2 exhaust stacks be filtered yet these proposed tunnels which are way longer are to have unfiltered stacks raining pollution on my and surrounding suburbs. It is a disgrace! I am pleased to see that all aspects of this huge infrastructure are to be investigated and will be following closely the findings. Kel Riordan.
