Hi Kate.

Will try to keep it short. A review NDIS plan done in Oct 2017 was submitted last Dec because of a lack in funds. In January our 37 y.o.son had urgent and extensive spinal surgery because of loss of leg function and right hand and arm function. He is now mostly in a borrowed wheelchair. He now requires a hoist for the bath, a new bed that lowers to the floor and a new customised wheelchair which he has been measured for. We submitted a change of circumstance review through our support coordinator in early June. This week 27/6 we received a revised plan which was just basically a rehash of the original plan. On 29/6 a third plan, exactly the same as 27/6 plan was sent. Amounts for the different areas of 's plan were basically the same as original plan, but the biggest shock was \$120,000 being slashed from his Core funding. We were not given any notification that this was to happen and am very concerned that our son's future needs, therapies other interventions and the equipment he now needs will not come to fruition.

Kind regards,  
Karen Hair
