

INQUIRY INTO IMPACT OF THE CBD AND SOUTH EAST LIGHT RAIL PROJECT

Name: Ms Susana Greenfield

Date Received: 5 July 2018

The Light Rail is good, convenient, innovative, and essential for the commuters...and economic development. However, I already had a toxic mould allergy from my previous unit. For months/years of construction, I still could feel the construction dusts that goes through the air, and made me cough - even when I am already in the higher building level. My neighbour also mentioned to me about the dusts coming through her open windows. Literally, for me is our health concerns. The government budget for this which I do not know if it comes from our taxes that we pay, I will leave it to the government - for some respect.
