I was asked why and how the NDIS is working, Well it has not come to Cairns Queensland, But if you think that getting through life with no physical problems, I would ask how would you manage to do your job without the ability to simply WALK, Every person has different need when suffering a disability, So my question is,,, Why cant you fund some thing like this NDIS so every one can be able to ask what they need , Every person has a different need, So why not ask them, ??? How good it would be ,if we could focus specific needs , It would go a long way to helping the most disadvantaged people of this Country,

Kind Regards
