Details of applicant

Application type: Resident

Information compiled on: 2018-06-01 19:07:04

Name: Diana argirellis

Business Name:

Email address:

Phone number:

Address of residence / business impacted by light rail project:

Doncaster ave kensington nsw 2033

Impact of the project

How have you been impacted by the light rail construction?

Stabling yard is our backyard, damages to our property. Way of life effected from the new light poles that shine into our homes . It's a 24hr operation which is effecting our lives..... nothing but lies from all parties involved!

What do you estimate the financial damage incurred to you / your business or home as a result of the light rail construction?

25,000

As a resident, have you been supplied with or offered noise mitigation equipment or double glazing for your property?

We were offered the ridiculous units on our walls to draw in fresh air - close up all ur doors and windows and vents - ludicrous

Also, some sealer around the doors - my 7 year old could come up with a better solution!

Can you demonstrate the financial impact of the light rail construction comparing revenue/expenses to 12 months prior to commencement of SLR construction?

N/A

Do you have evidence to support your claim (invoices/tax returns/profit & loss)?

N/A

Has your mental health been impacted as a result of the project?

I'm going crazy trying to stay on top of LIFE itself.... but I also have light rail issues to deal with....

Government assistance

Have you been rejected or outright refused assistance from TfNSW?

N/A

If you were rejected, please provide details of your experience including how you were treated by TfNSW.

If you are receiving rental assistance, how long did the process take to receive assistance?

General comments

Do you have any other comments you would like to make?

I wish to make comment about the effects and implications of the light rail stabling yards on residents of Doncaster Avenue.

As residents in the area, we are being subjected to conditions that exceed any reasonable level of expectation. The stabling yards which adjoin our residences are noisy, lit up in a way to mimic the sun, due to operate at all hours, and completely inconsiderate of our needs as residents.

Throughout the process to build the yards, there have been various changes and amendments made to accommodate the needs of the project, and none for us.

We are not being taken care of in regard to this situation, and we are all paying the price. This is a permanent change, we were never properly consulted, and we were never given another choice.

For more complete information, please see the attached documents as relating to the stabling yards.
