General comments

Do you have any other comments you would like to make?

The things that I would add to this information is that our Mental Health and Physical Health continue to decline as the situation is only getting worse. Our decline is business continues to grow where the rest of the NSW Metro group continues to enjoy increased profits, we are definitely trading against the trend of the group.

We continually get phone calls asking where we have moved to. Since this is the consensus of the public it worries me how many are just moving their business to other areas.
