LIGHT RAIL PROJECT**

I wish to make a late Submission and would appreciate if you could accept my late representations.

My concerns follow: The “slash and burn” planning process is rushed through and why? I'm concerned by deals being made which require the removal of trees across the Sydney basin, some of which are incredibly old and house so many animals and provide a much needed green belt for us. Overcrowding of humans is not the key in Australia, for a start there isn't enough water to keep us all. Why is the government selling off our public buildings and land to foreign ownership? I feel an inquiry may enlighten the public into what is truly going on behind closed doors.

Thank you for considering my Submission.

Yours sincerely,
