Thank you for the opportunity to make a Submission to the Inquiry.

In particular, I am concerned about the impact on local business and communities as a result of the project.

My specific concerns follow: I see nothing but long term problems. Problems for the business owners especially those that have small businesses and moving about the city is a nightmare. There's so many footpaths that are unsafe for me as a disabled person. I find that using my ebike is impossible in the city right now. I have permission to use footpaths but everyone gets mad and they don't understand the law. Google maps doesn't show me where the disruptions are. Many trees have been pulled down displacing the animals that live in them and well we do need more parks. Not less. The more trees we have the better we breathe. You can't live without them and it is folly to think you can. What was done out towards Kensington with that row of trees is just awful

Thank you for considering my Submission.

Yours sincerely,
