Thank you for the opportunity to make a Submission to the Inquiry.

I believe the light rail project has been handled terribly, was and is not the right solution to our public transport problem, has had a devastating impact on our environment and is a visual eye sore. It was rushed and began without proper planning or community consultation and has been one of the worst projects in history. Never would a project be handled this way in the corporate world, nor should it. The terrible impact on our community has been noticed, only yesterday on the bus I heard a new resident describing what was once beautiful Kensington as a dirty, concrete jungle.

Thank you for considering my Submission.

Yours sincerely,
