I have made the application for the revision of my daughter's plan since January of this year and I still do not have a specific answer if they approved it or not, they only tell me to call in 2 weeks and we will give them the answer and it is already July and still nothing.

## Support Budget 2018

I request \$ 38,989.50 for the entire budget for this year 2018, but only approved \$ 11,211.94, please request that you reconsider my request, because my little daughter urgently needs this help, because I am a single mother and I don't have transport to mobilize me and my daughter ; I can't easily work or study because of the amount you approved is not enough , I do not have family help me and my daughter's father is not in Australia; my health is not in good condition due to stress and previous health problems that require hospitalization but I can't access to be pending in the activities of my daughter I send the proof of quotes of each activities and therapy requested.

I strongly request that you view my case carefully and approve my request.
