INQUIRY INTO IMPACT OF THE WESTCONNEX PROJECT

Name: Mrs Maria Nugent

Date Received: 13 August 2018

Our family and community are opposed to West Connex. We want sustainable public transport solutions which protect our health. Sydney is an international city which should have the foresight and hindsight to reinstate public transport systems to the Inner West. London has continued to add underground and light rail systems for the benefit and quality of life of its residents. Why should the urban residents of Sydney have to put up with more roads, pollution and congestion? Why can't we have politicians with vision? The plan for unventilated exhaust stacks is a criminal disgrace. Bring back light rail to the Inner West, improve bike lanes, repair and use Glebe Island Bridge as an alternative route for cyclists and pedestrians. Put people before profit!
