

**INQUIRY INTO IMPACT OF THE WESTCONNEX
PROJECT**

Name: Name suppressed

Date Received: 17 July 2018

Partially
Confidential

This project is a laughing stock. There has been a blatant disregard for those who have been effected by the action of those in control. Houses have been purchased and the surrounding land value reduced so that the land can be used for temporary parking of workers cars. How can people's Lives be uprooted and investments destroyed so that a few cars can be parked for a temporary period. (Area: surrounding Toelle st, Rozelle.) This is a fact, alternatively the information provided in the community engagement sessions & documents has been false. This is also likely having witnessed the practices used by those controlling this project. Promise are made that residents will be protected, but this never happens. We've heard story after story. Protect the people, not the interest of a few.
