WESTCONNEX in unnecessary wasteful madness . Privatisation is SELLING THE PAST and MORTAGING THE FUTURE. This thinking is so out of date and out of kilter with public wishes and perceptions. It is so 1950's This project represents all that is wrong in NSW. The NSW State Libs have corrupted proper political and administrative process. Private roads are not in the public interest. Privatisation of our state assets and toll road building, in preference to developing and actually completing proper public transport options is just plain bad kleptocracy cronyism from government. WESTCONNEX has caused too much disruption through bad planning and very poor organisation. The state government has acted like a power crazy, traitorous bully. The importation of trams and trains is fiduciary foolishness. To deny the people of NSW a right to work and build their own infrastructure and build it to the right size is an act of treason in my opinion. VOTE THESE STUPID BASTARDS OUT
