**INQUIRY INTO CEMETERIES AND CREMATORIA
AMENDMENT REGULATION 2018**

Name: Ms Merryn Kew

Date Received: 29 August 2018

I find your proposal of digging up graves after 25 years is disgraceful. Your forever grieving your loved one and then to not have anywhere to go to be with them, pray and just feel close to them again is appalling I wish that the people who govern this country were more human, more empathetic and more understanding of the human beings they are supposed to be guiding instead of working out how to line their already deep pockets
