INQUIRY INTO IMPACT OF THE WESTCONNEX PROJECT

Name: Mr Daniel Sturrock

Date Received: 27 August 2018

I have been following the Westconnex project (Stage 3) with interest. I am willing to be convinced of the case for the project but I have not seen that case made, including a rigorous assessment of the public transport alternatives. Most importantly, any project of this sort should adopt world's best practice in terms of environmental impact. The project (in broadest terms) can and should improve the local environment for Sydney, the Inner West and Rozelle. The NSW government has a duty to seriously consider the impacts and opportunities to improve the project so that the community does not live in regret for many decades to come.
