**INQUIRY INTO IMPACT OF THE WESTCONNEX
PROJECT**

Name: Mrs Kim Smith

Date Received: 27 August 2018

The Westconnex Extension to Iron Cove Bridge is a wrecking ball through our Suburb - the loss of homes, the air quality degradation with the exhaust outlets within metres of schools, homes, cafes & parks is detrimental to all our lives. The bottleneck that will be created from the exit of the tunnel onto the Bridge will only exacerbate and move the bottleneck into Drummoyne . Traffic flows are only improved by better and more efficient public transport - enforce bus only lanes & build car parking depots close to the main road artery bus stops . Effective and less expensive than huge toll roads built by private companies.
