**INQUIRY INTO IMPACT OF THE WESTCONNEX
PROJECT**

Name: Name suppressed

Date Received: 28 August 2018

Partially
Confidential

It is inconsistent with the NSW Government's policy to reduce the number of cars coming into the city and to reduce congestion; - Sydney has awful congestion problems. More cars and roads is not the solution. There has been inadequate planning and changing outcomes and the current goals of the project are not clear; - it's not fair to start work before it's been fully approved The serious threats to our city's liveability including reduced air quality and the massive loss of parkland, trees and valuable inner city land; - I contracted bronchitis from all the Building dust, I see the parks I walk my dog in being destroyed. We should be making more green space not destroying it. and A serious lack of transparency and consultation with affected communities - there seems to be high level corruption here. How can big companies push stuff like this through without public support? It's our tax money that is being misappropriated
