**INQUIRY INTO CEMETERIES AND CREMATORIA
AMENDMENT REGULATION 2018**

Name: Mrs Tess De La Pair

Date Received: 30 August 2018

25 years is not long enough, i understand the need to do this as we are running out of space, however i feel that the time before digging up the dead should be made the average human lifespan, ie, 75 yrs or so. That gives living family 1 lifetime to visit their loved ones. Thank you.
