INQUIRY INTO IMPACT OF THE WESTCONNEX PROJECT

Name: Ms Maria Bradley

Date Received: 28 August 2018

Westconnex was supposed to take trucks out the city and take them to airport and port botany. Why isnt Westconnex going there? Why is part of westconnex ending at moore park? Tony Shepherd must be asked to appear to answer why the route changed, why the business case is flawed and why he thinks this project and cbd light rail should meet at Anzac Parade. Where are the traffic studies. The Stage 3 does not have a design but was approved. How could this happen? The air quality of Sydney will be impacted and having smoke stacks that are unfiltered near schools and residents is negligent. The project along with cbd light rail and stadiums should be referred to a Royal Commission
