WestConnex project is deeply concerning base on the following:

- It is inconsistent with the NSW Government's policy to reduce the number of cars coming into the city and to reduce congestion;
  - There has been inadequate planning and changing outcomes and the current goals of the project are not clear;
  - It has a flawed business case based on assumptions that are no longer valid; -The serious threats to our city's liveability including reduced air quality and the massive loss of parkland, trees and valuable inner city land;
- and A serious lack of transparency and consultation with affected communities.
