Which genius in your government thought it was a good idea to make room for thousands more cars on Sydney roads? The inner city suburbs are already choked, public transport is almost unusable because you refuse to invest in it, buses since privatisation are erratic, late or don't turn up and your government thinks the solution is to put more cars on the road. Add to this pollution, the smell, the constant noise and you've made our life hell. And you don't care as we mostly don't vote for you. But you are supposed to govern for all of us. You are a very disappointing government and I hope the voting public gives you the drubbing you deserve in the next elections.
