WESTCONNEX PUBLIC ENQUIRY SUBMISSION 31.8.18

A GRANDMOTHERS PERSPECTIVE.

- Our Rozelle house in                      has been in our family since 1954.
- I am deeply concerned about the changes taking place in Sydney and want to object to the Westconnex plans which would destroy our beautiful suburb.
- The toll roads and particularly stage 3 would affect my family immeasurably and I urge you to change the design and stop stage 3 altogether.
- My grandson suffers breathing difficulties already in Sydney and had asthma as a child so I am very worried about the proposal of unfiltered stacks so close to the house and school where he attends. I cannot believe they are even allowed in a civilized country! It should be outlawed!
- Transport experts say that Westconnex is not a solution and will not fix the problem so how can the government keep proceeding?
- I believe it is a flawed plan and a huge waste of rate payers money, of which I am one of many against the project.
- Stop Westconnex now and put the billions into public transport where it is sorely needed.
- Save Sydney from this terrible project continuing any further before it's too late!

Sincerely,
