INQUIRY INTO CEMETERIES AND CREMATORIA AMENDMENT REGULATION 2018

Name: Ms Maria Doyle
Date Received: 6 September 2018

Below is a picture of where I visit my two youngest sons. Both tragically died at age 17 five years apart. Also pictures of my beautiful lost boys and of my two remaining sons. I want you to see the reality of the people you are hurting by this underhand legislation.

The cost of funerals is already wickedly expensive. The aftermath of our losses has left my other boys and I financially broken. Yet you are bringing in legislation that will harm grieving families in the future. Not everyone dies after a long life. I will still be visiting my boys after 25 years. I am appalled that this is your solution to dwindling cemetery space.

I challenge you to look any grieving mother in the eye and explain your reasoning.

Shame on you all.
