Hi everyone I HAVE a dreaded fear of global warming and climate damage. But that is not the only concern, recently I also worry that society is changing too quickly for future generations. I nicknamed the situation, 'PRIMATE CHANGE' and it is just as bad as climate change! Road tolls are not for death tolls as the word, 'toll' would suggest. And DO so please halt ANY other illegal road projects and invest BETTER TRANSPORT please! I have also heard about ridiculous speed limits starting legislation on Saturday. Would you impose a heavy fine on police officers who breaches drivers' road rights such as driving at normal speed around emergency vehicles!! I am afraid that bus drivers could also get a fine. You have a responsibility to striking a balance between road safety and public transport. Thank you for now but DON'T GET UPSET!
