

**INQUIRY INTO IMPACT OF THE WESTCONNEX  
PROJECT**

**Name:** Name suppressed

**Date Received:** 31 August 2018

---

Partially  
Confidential

The building work, and the scheme of the WestConnex development is an unnecessary, traffic-congestion-causing messy shambles. It is currently causing - traffic hold ups, noise, dust, unhappy residents. Its future performance will send traffic to a bottleneck, and create pollution.

It is a poorly thought out scheme which is affecting and will forevermore adversely affect the residents of St Peters and surrounding areas.

How could this happen to a community?
