When I read this I was truly disgusted, the thought that those we love who have passed on, potentially only have 25 yrs to have a special resting place, where family, friends and loved ones can still visit, before it's removed and sold off again to me that is absolutely morbid and someone with no conscience at all would have to think that this is a good idea let alone go ahead with these horrible plans. I'm losing more and more faith in those who govern Australia every day. Being the mother of a 5 yr old son, I truly fear for his future in this country, given the way it's going of late. Don't be such monsters and don't pass this monstrosity. Where is your respect?
