**INQUIRY INTO IMPACT OF THE WESTCONNEX  
PROJECT**

**Name:** Name suppressed

**Date Received:** 31 August 2018

---

Partially  
Confidential

To whom it may concern- Could you please explain how Westconnex was approved without a demonstrable business case.? Could it also be explained why the business case was only released after project approval had been given ? The business case that was released contained so much redacted material as to make completely useless as a document to reference .How can this be allowed? Why was the property acquisition process so unfair to many yet so generous to some ? le Garlows pies ? Can this be investigated? Why are the exhaust stacks allowed to be infiltrated, especially being so close to our local public school? Why have we had to endure the dust , noise pollution and smells day & night from the interchange construction site? How can a project like this be transferred in a semi private corporation SMC in order to avoid any public scrutiny? The secrecy surrounding this project is astounding why do we as tax payers have no right to information regarding its approval?
