As as I wrote no smoke stacks please it will cost more in people health ,my daughter and son are at school in the area please filter the stacks please.

My daughter is 7 years old and will have to live with smoke stacks next to her school, I'm asthmatic and so is my son 15 years old we live just off Victoria rd .The community and pur family is against any smoke stacks what were you all thinking? Its our health a risk. I haven't spent years off my life paying taxes for the government not to insure our basic rughts clean air. Please filter the smoke stacks or just stop the project we need better pulic transportation not tunnels unless its trains.
