**INQUIRY INTO WATER NSW AMENDMENT
(WARRAGAMBA DAM) BILL 2018**

Name: Name suppressed

Date Received: 2 October 2018

Partially
Confidential

I am concerned that the proposed raising of the dam wall will have a negative impact on the surrounding environment, wildlife and waterways. I am also concerned that the decision is being made without sufficient information and research into the potential impacts. The wishes of local indigenous people have not been sufficiently considered and it appears that their participation in review processes has been limited, for example by being given unreasonably short notice to attend meetings. This is a change that cannot be altered and the impacts will be also unalterable. It is hard to find any good reason for making this potentially devastating environmental decision. The dam wall should not be raised.
