**INQUIRY INTO WATER NSW AMENDMENT
(WARRAGAMBA DAM) BILL 2018**

Name: Mr Callan Lawrence

Date Received: 2 October 2018

Dr Honorable Members of the Parliament. Please realise that damning and flooding this part of The Blue Mountains will be destroying forever an irreplaceable part of Australia. These wild rivers and valleys need to be seen to be believed. If you're voting on this legislation but have never hiked these river valleys, please do so first! No matter the small percentages of world heritage land that this bill plans to destroy, it is nonetheless destroying wilderness that can't be replaced. All other options should be considered first. Surely this can't be the best solution.
