this is a world heritage listed national park it must be preserved for generations to come and not destrpyed for a few dollars into the goverment hands .. this is signing a death sentence to the political parties as the public are at breaking point with gov selling of assets and riding cost and destroying our wildlife and nature the wildlife must be protected the dam very rarely gets to capacity ... instead of rasing it build a pump house and pump excess water to the bush and farmers where it is needed ...this is a outrage and must not go ahead
