**INQUIRY INTO WATER NSW AMENDMENT
(WARRAGAMBA DAM) BILL 2018**

Name: Mr Peter Clark
Date Received: 3 October 2018

This idea is one of the worst, among many bad ideas this current government has had. This will deliberately destroy thousands of hectares of wilderness which has inestimable value and should be preserved at all costs. If lost it cannot be replaced, ever. Once lost it is gone forever. Even if the reason given for raising the dam wall is legitimate it must be solved by another means. The preservation of this wilderness area and its accompanying Indigenous value must be preserved at all costs. It must not be destroyed by this blatant vandalism.
