**INQUIRY INTO WATER NSW AMENDMENT
(WARRAGAMBA DAM) BILL 2018**

Name: Bruce Grimston

Date Received: 3 October 2018

Little is to be gained. This is political divergence and wasteful use of tax payers money. Nepean River sends enough water alone to inundate the lower regions- so you know "where" it will rain do you. You are prepared to destroy what little is left in the Valley just to prove that you can walk all over the people, just like the Gestapo's that first built the dam. Find instead a water storage away and save what is left of my Valley.
