No 80**

**INQUIRY INTO WATER NSW AMENDMENT  
(WARRAGAMBA DAM) BILL 2018**

**Name:** Mr David Noble

**Date Received:** 3 October 2018

---

I strongly object to any raising of the Warragamba Dam wall for flood mitigation purposes. Even a temporary raising of the water level would be very detrimental for the rivers upstream of the present Lake Burragorang. In particular, it would cause serious and permanent damage to the Kowmung River - one of very few wild rivers left in NSW. The Kowmung River is of outstanding scenic beauty and is certainly comparable to the Franklin River in Tasmania.
