**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Mr Ashok Jain

Date Received: 26 June 2019

It's unethical for hens to spend their life in small cages where they do not have enough space even to spread their wings. Birds have to stand on wires which can be painful in the long run. Why birds should be imprisoned for life without committing any crime. Birds should be allowed to live in their natural environment.
