To whom it may concern,

I would like to state my support for the suggested amendments to the bill.

My reasons are simple - delivering justice is what our justice system must always strive to do.

If over time legislation changes and it becomes clear that some sections of the law are not doing that as well as they could be, then it is necessary to amend the law to improve the outcomes ... and consequently reduce the possibility of citizens suffering injustice.

I commend the work of the committee and thank you for your time

Yours sincerely
