

**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Name suppressed

Date Received: 26 June 2019

Partially
Confidential

-Eggs are unnecessary as there are much better and sustainable plant based options that the Government could be investing in.

- No matter the production system, hens meet the same cruel end.

- For every hen born, a newly born rooster will meet a gruesome end through an industrial grinder or piled into a bin and painfully gassed to death in terror.
