No 70**

**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN  
THE EGG PRODUCTION INDUSTRY**

**Name:** Ms Wendy Miller

**Date Received:** 26 June 2019

---

I request the NSW Government phase out battery cages for egg laying hens by 2025 and instead put in place a clear and enforceable minimum area of free range space per hen in the egg industry. The NSW &/or Federal Government also needs to police and have the powers to enforce animal welfare and living conditions across all agriculture & industries where animals are used for commercial purposes.
