**INQUIRY INTO USE OF BATTERY CAGES FOR HENS IN
THE EGG PRODUCTION INDUSTRY**

Name: Miss Shannen Mahoney

Date Received: 26 June 2019

A cage is no place for any animal!

If you were to spend more than 5 minutes with any hen, you would see how amazing they really are. I have rescued hens in the past, the horrible conditions they are put through break my heart and it should break yours. They are amazing creatures and have so much to give.

Please think about how you would like to be in a tiny cage and not be able to move and stretch. They deserve better.

Shannen
